

Dear Colleagues,

Thank you for your purchase!

Here you will find a list of all the images we used in the Beta child theme to make it easier for you to get licensed images.

You can determine the dimensions used in our design by the size of the placeholder images to prepare your images for your website.

Please do not forget to purchase licenses for each image.

We recommend that you purchase an annual subscription, as it will end up being much more cost-effective than buying each image individually.

In case you have purchased a Beta child theme and would like to receive the image templates (mockups) used in product descriptions (Course Sale with books), leave your review about our theme on the product page in the [ET Marketplace](#) or on our website [Divi.Expert](#) and send me an email request and I will send them to you immediately.
